LIVE OAK LIBRARY ANNEX PROJECT  COUNTY OF SANTA CRUZ
Measure S

Planned library improvements in Capitola and Live Oak – part of the 10-branch Santa Cruz Public Libraries system

Capitola
- Replace inadequate, cramped, temporary facilities with a modern, permanent library
- Provide safe space for teens after school, including area for homework and tutoring
- Provide space for wide range of community programs serving seniors, children and community members of all ages
- Community input on design process and features

Live Oak
- Create flexible program spaces for library and community activities
- Improve and upgrade teen area – a safe place for after-school uses including dedicated space for homework and tutoring
- Improve areas for young children’s programs like story time, early childhood reading and computer access
- Partner with Live Oak School District, Boys and Girls Club and the County to establish a library annex at Shoreline Middle School

Improving the Live Oak Branch

- Create flexible program spaces for library and community activities
- Improve and upgrade teen area – a safe place for after-school uses including dedicated space for homework and tutoring
- Improve areas for young children’s programs like story time, early childhood reading and computer access
- Partner with Live Oak School District, Boys and Girls Club and the County to establish a library annex at Shoreline Middle School
Programs offered at the Live Oak Branch:

Limitations at existing Live Oak Branch:

- Limited parking
- No separate programming space - sound travels throughout library and disturbs patrons.
- Teen room is often unavailable to teens, as it is used for all programs offered.
- No spaces suited to collaborative work.

Limitations at existing Community Center:

- Great hall used for child care
- No smaller rooms available for trainings and classes
- No collaborative indoor spaces
- Limited indoor recreational opportunities
- Commercial kitchen under utilized
